LETTER OF RECOMMENDATION

I am extremely pleased to recommend **VAKKALAKULA NAVYA** for graduate studies at your esteemed university. I have known her since the last two years of her engineering. I taught her “LINUX PROGRAMMING”. I found her performance in my subjects excellent and I confidently state that she is one of the best students. She is an attentive listener and actively participates in class discussions and seminars. She is a diligent student with excellent communication skills.

I have also overseen her Project titled “APARTMENT MANAGEMENT SYSTEM” where I was an internal guide and a part of Evaluation team. This has given me enough opportunity to assess her sincerity, commitment towards studies. I would say her understanding of the fundamentals of the subject is excellent. Her clear understanding of the basic phenomenon has given and will continue to give her a clear edge over her classmates. I have noticed that she is very innovative in thoughts and actions and her extraordinary ability to analyze problems and come up with truly brilliant solutions are invaluable.

As a student, she has never been content with mere class work but also involved in departmental activities. She is an excellent team player, her leadership skills have been brought to the fore on several occasions. She has always submitted assignments on time and She used to help others with their problems and her hard work is only exemplified by the way she commits herself to finish.

Her dedication towards higher studies, quest for knowledge and her intellectual abilities impel me to strongly recommend her to the graduate program in your esteemed university.

(G. Udaya Rani)
